### Real talk. Real stories. Real connection....

Join us in Geneva for a relaxed fireside chat, an evening of camaraderie, laughter, and the kind of honest dialogue men don't always get to have.

With 40% of men having never spoken to anyone about what they're going through, there's still work to do. This Movember, the Grand Tour is about opening up, not with pressure, but with presence. A chance to listen, share, and remind ourselves we're not alone.

Having faced his own challenges, Martin knows that asking for help takes courage and that strength often begins with connection. In Geneva, he'll be joined by Emmy award winner Tony Johnston to share stories and spark new perspectives.

\*All proceeds raised will be donated to the Swiss charity, Heart2Heart, the English crisis support helpline from the wonderful folks at #143.
